

MEETING OBJECTIVE

Leadership Review of ERP & 360° HPC Rollout

PRESENTED TO

Director | Principal | Headmaster | Chief Co-ordinator

PLATFORM

Unified Cloud ERP

1 EXECUTIVE SUMMARY & STRATEGIC RATIONALE

As Gyanoday Niketan continues its expansion in academic scale and excellence, paper registers, disconnected spreadsheets, and fragmented records introduce administrative delays, manual errors, and communication gaps with parents. The **Gyanoday Niketan ERP** is a purpose-built, cloud-based institutional operating system designed to unify school governance, streamline examination logistics, strengthen fee controls, and establish structured support for ICSE and NEP 2020 Holistic Progress Card (HPC) requirements.

Core Mandate: Consolidate institutional governance into one single source of truth—providing leadership with real-time academic and financial visibility, relieving teachers of routine tabulation, and delivering parents a transparent window into their child's progress.

2 LEADERSHIP IMPACT MATRIX: THE 4 ADMINISTRATIVE HEADS

The platform addresses the exact governance responsibilities of our four administrative leaders.

The Director

GOVERNANCE & FINANCE

- **Executive Financial Visibility:** Real-time collection metrics, outstanding fee categorization, and automated digital ledger reconciliation.
- **Institutional Data Sovereignty:** Complete school ownership on dedicated encrypted cloud storage—eliminating third-party lock-in.
- **Institutional Distinction:** Positions Gyanoday Niketan as a technology-first leader, enhancing admissions appeal and parent trust.

The Principal

ACADEMIC LEADERSHIP & 360° HPC

- **Executive Academic Moderation & Approval:** Final institutional moderation authority across all terms; digital sign-off and publication controls.
- **NEP 2020 360° Holistic Progress Card (HPC):** Full oversight of all 4 developmental voices (Teacher, Student self-reflection, Peer review, Parent home observation).
- **Quality Assurance & Standards:** Cross-class performance benchmarks, rubric adherence, and early remedial learning intervention.

The Headmaster

SENIOR ACADEMICS & DISCIPLINE

- **Senior School Academic Oversight:** Instant analysis of Class 9–10 ICSE performance, subject-wise bottlenecks, and board readiness.
- **One-Click Examination Review:** Rapid verification and moderation of terminal mark sheets, grading curves, and student ranks.
- **Punctuality & Discipline Tracking:** Real-time monitoring of chronic student absenteeism and faculty attendance patterns.

The Chief Co-ordinator

OPERATIONAL RHYTHM & FACULTY ENGINE

- **Conflict-Free Routine Engine:** Automated timetable generation with instant teacher substitution management during leave.
- **Weekly Assessment Cadence:** Standardized test scheduling across all sections without syllabus collision or classroom logjams.
- **Departmental Synchronization:** Seamless coordination between classroom teachers, administrative offices, and library facilities.

3 CORE FUNCTIONAL PILLARS OF THE SYSTEM

MODULE / PILLAR	KEY CAPABILITIES	OPERATIONAL BENEFIT
NEP 2020 360° Holistic Progress Card (HPC) ACADEMIC MANDATE	Multidimensional competency rubrics (Beginning, Progressing, Proficient, Advanced); multi-voice evaluation drawer; formal Principal review lifecycle; automated PDF generation.	Supports national education mandates; reduces end-of-term reporting chaos; creates a distinctive academic showcase for parents.
Fee Management & Financial Governance FINANCE & AUDIT	Automated batch receipt generation; structured fee-head tracking; one-click defaulter reports by class/term; immutable payment audit trail.	Strengthens financial control; saves accounts-desk time; reduces manual reconciliation and calculation discrepancies.
Academic Operations & Routine Engine DAILY OPERATIONS	Mobile teacher attendance in under 60 seconds; instant parent absence alerts; master timetable synchronization; teacher relief substitution logic.	Immediate notification of student absences; reduces period disruption when faculty are on leave; streamlines daily school rhythm.
Frictionless Student & Parent Portal COMMUNITY PORTAL	Secure login using Student Name + UID (no forgotten passwords); live terminal report cards; attendance percentage tracker; official announcements.	Reduces routine front-office enquiries through self-service access and gives parents clearer academic and attendance transparency.

4 ENTERPRISE DATA SECURITY & INSTITUTIONAL GOVERNANCE

The platform enforces structured security and governance controls to protect student welfare, academic records, and institutional financial data.

Role-Based Access Control (RBAC)

Teachers only access their designated classes; accountants cannot modify academic marks; only Administrative Heads possess institutional oversight and final card publication authority.

Database Row-Level Security (RLS)

Database policies support tenant and student isolation. Direct unauthorized API requests are rejected at the database level.

Immutable Audit Logging

Significant actions—including mark modifications, fee receipts, and HPC publications—are logged with timestamp and user ID for accountability.

Encrypted Cloud Backups

Nightly automated backups are designed to reduce institutional data-loss risk due to hardware failures or local device damage.

5 PHASED ROLLOUT ROADMAP (ZERO CLASSROOM DISRUPTION)

Implementation follows a managed, low-stress transition plan designed around current teaching schedules.

PHASE 1 (WEEK 1)

System Setup

- › Academic calendar & terms
- › Class & subject mapping
- › HPC competencies baseline
- › Fee structure confirmation

PHASE 2 (WEEK 2–3)

Faculty Onboarding

- › 30-min teacher clinics
- › Digital roll-call training
- › HPC evaluation drawer practice
- › Departmental timetable review

PHASE 3 (WEEK 4)

Portal Launch

- › Issue Student UIDs
- › Parent reflection trial
- › Weekly test schedule roll-out
- › Administrative feedback loop

PHASE 4 (WEEK 5+)

Full Operations

- › Full digital attendance
- › Live 360° HPC publishing
- › Automated fee receipting
- › 100% paperless governance

6 MEASURABLE OPERATIONAL & FINANCIAL RETURN

Significant

Reduction in manual examination and mark-tabulation workload

Lower

Paper consumption for report cards and circulars

< 60s target

Per-class morning attendance marking on mobile devices

Minimized

Fee leakage exposure through automated receipt and reconciliation controls

7 ADMINISTRATIVE LEADERSHIP REVIEW & DECISION

Following review and discussion, Administrative Leadership may record its decision and recommended modifications below.

ADMINISTRATIVE ROLE	NAME OF THE HEAD	DECISION	SIGNATURE & DATE
The Director Governance & Finance	_____	☐ Approved for phased rollout ☐ Approved with modifications ☐ Further review required	_____ Date: ____ / ____ / 2026
The Principal Academic Leadership & 360° HPC	_____	☐ Approved for phased rollout ☐ Approved with modifications ☐ Further review required	_____ Date: ____ / ____ / 2026
The Headmaster Senior Academics & Discipline	_____	☐ Approved for phased rollout ☐ Approved with modifications ☐ Further review required	_____ Date: ____ / ____ / 2026
The Chief Co-ordinator Operational Rhythm & Faculty Engine	_____	☐ Approved for phased rollout ☐ Approved with modifications ☐ Further review required	_____ Date: ____ / ____ / 2026

Meeting focus: Confirm academic calendar & terms • class/subject mapping • HPC competency baseline • fee structure • teacher clinics • digital roll-call • HPC evaluation drawer practice • departmental timetable • Student UIDs • parent reflection trial • weekly tests • administrative feedback loop.
